RE: Authorised Distributor of the Full SKF Product Portfolio

To Whom it may concern,

This letter serves to confirm that **Bearing Centre** would be officially appointed as an Authorised Distributor of the full range of SKF products and services for the limited geographical area of Malawi

SKF South Africa utilize a network of strategically located authorised distributors across Southern Africa with the technical ability to service and supply SKF products who would be in the best position to service our customer's needs. SKF would therefore recommend that customers channel all their local product and service demands through the relevant distributor branch in their area.

Bearing Centre operates well equipped branches in Blantyre and Lilongwe with highly skilled personnel. The company is also direct importers of genuine SKF products and would be directly linked to SKF's logistics system, giving them access to our main warehouses both locally and overseas.

With growing concerns around counterfeiting of high quality products, SKF then also strongly advocates the sourcing of all SKF products from authorised channels *only*. We would further want to emphasise that sourcing SKF product from unauthorised dealers, would be done at your own risk and that SKF reserves the right not to entertain any warranty claims or equipment damage that might result out of such a purchase. We are therefore very proud to endorse and recommend our authorised distributors in this regard.

To learn more about SKF South Africa (Pty) Ltd, please visit us at www.skf.co.za or feel free to contact **Bearing Centre** as your local authorised SKF distributor for more information and assistance with all your SKF needs.

Yours faithfully

Anton Theunissen
